Reason							
Recommendations							
I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).

Concussion Information and Acknowledgement Form

Parent and Student:

It is important that parents and students are educated about concussions. All concussions are serious, and concussions can occur in any sport.

- 1. Definition of Concussion: A brain injury that interferes with the normal brain function.
- 2. Cause of Concussions: A bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth.
- 3. Signs and Symptoms of Concussions:

Headache **Slurred Speech Answers Questions** Nausea Slowly **Moves Clumsily** Vomiting Sensitivity to Light or Dizziness **Balance Problems** Noise Confused **Forgets Instruction** Unsure of Game, Score or Sluggish Numbness/Tingling Opponent **Shows Mood, Personality Fatigue Loses Consciousness Blurry Vision Concentration Problems** or Behavior Changes **Cannot Recall Events** Memory Loss Slowed Thought Process **Appears Dazed Difficulty Thinking Clearly Prior To or After Injury**

- 4. In accordance with Georgia Law, the following must occur if an individual exhibits signs, symptoms or behaviors of a concussion:
 - a. The individual shall be immediately removed from practice or competition.
 - b. The individual suspected of having a concussion shall be seen by an appropriate health care professional before the individual can return to athletic participation.
 - c. The individual shall not return to practice or competition the same day the concussion or suspected concussion occurred.
 - d. If no concussion has occurred, the individual can return immediately to practice or competition
 - e. If a concussion has occurred, the individual cannot return to participation in practice or competition until medically cleared by an appropriate health care professional.
 - f. An individual could never return to participation if the individual still has any symptoms of a concussion.
 - g. After clearance has been issued, the individual's actual return to participation in practice and competition should follow a gradual procedure suggested by the National Federation of High Schools and directed by the appropriate health care provider clearing the athlete for activity.
 - h. An appropriate health care profession may include licensed doctor or another licensed individual under the supervision of a licensed doctor such as a nurse practitioner, physician assistant, or certified athletic trainer who has received training in concussion evaluation and management.
- 5. The following information can be found online and is recommended for parents and students to read concerning concussions:
 - a. NFHS Suggested Guidelines for Management of Concussion in Sports.
 - b. NFHS, A Parent's Guide to Concussions in Sports
- 6. Parent and student should sign the form below. The school and parent should maintain a copy of this form.

I have read this form and I understand the facts presented in it.
